

Curtin Mauritius

BACHELOR OF COMMERCE

BUSINESS INFORMATION

TECHNOLOGY AND SYSTEMS (DOUBLE MAJOR)

ABOUT THE DEGREE

Take the technical lead. Give your management aspirations an edge with a detailed understanding how business information systems work. In this double major you'll examine the management, planning and design of information technology, and study how to use information technology and systems to solve all kinds of business problems.

The information technology major focuses on how information technology is used to collect, process and output information in organisations, and provides an in-depth knowledge of computer programming and design, as well as systems implementation and management. You will gain an introduction to: programming and design, systems implementation, and IT management.

The Information systems major focuses on the business side of information technology. You will learn how business information systems are selected, managed and applied to business problems, and gain a broad understanding of business systems analysis and design, business software tools, information security, project management, business-related information systems management and knowledge.

ABOUT CURTIN UNIVERSITY

Curtin University is an innovative, global university, with campuses in Perth, Mauritius, Dubai, Singapore and Malaysia. We are known for our high-impact research, strong industry partnerships and commitment to preparing students for jobs of the future.
