BACHELOR OF COMMUNICATIONS

WEB MEDIA & CORPORATE SCREEN COMMUNICATION

ABOUT THE DEGREE

Communication professionals are multi-talented experts who can communicate information across the media and corporate landscape to a large number of people.

This broad-based degree will give you training for traditional media and communication roles, but will also prepare you for emerging job roles that may not yet exist in these fields.

You'll cover a range of subjects in media, design and business, giving you foundational knowledge in media and corporate communications, and the scope to specialise in two fields of your choice.

During the course, you'll develop your critical thinking and practical skills, using commercial-level equipment to produce work for print, radio, film, television and online media.

You'll build an extensive portfolio of work and have opportunities to connect with industry professionals, so you can graduate ready for a range of positions in the communications industry.

In your first year you'll be introduced to the different spokes of communications and study optional units that reflect or refine your learning in specific communication areas.

In your second and third years, you'll choose two specialisations to study. Please consult our different factsheets for choice of specialisations.
